Expert opinion

Activity against *Staphylococcus aureus* MRSA of **BIO-SANITAS PROTECT** for disinfection in the quantitative suspension test according to DIN EN 13727:2015 (Phase 2, Step 1)

The disinfectant **BIO-SANITAS PROTECT** was tested and evaluated according to DIN EN 13727:2015 "Chemical disinfectants and antiseptics - Quantitative suspension test for the evaluation of bactericidal activity in the medical area - Test method and requirements (phase 2, step 1)". *Staphylococcus aureus* MRSA was used as single test bacterium.

According to the test report no. L22/00681.1 dated 09/12/2022 of Dr. Brill + Partner GmbH the preparation showed activity against *Staphylococcus aureus* MRSA (for disinfection) under clean conditions at 20°C ± 1°C.

BIO-SANITAS PROTECT complies with the requirements of DIN EN 13727:2015 (phase 2, step 1) with the following concentration-time relationship:

Activity against

<i>Staphylococcus aureus</i> MRSA:	clean conditions	100 %	30 seconds
------------------------------------	------------------	-------	------------
